

# Vertical Markets Home Assistance

# Ennova | Home Assistance

## How Can We Help

- Real-time information and surveillance;
- Remote safety and security monitoring;
- SOS Alerts;
- Air Quality Monitoring;
- Temperature and Humidity monitoring;
- HVAC or Heating systems control;
- Energy consumption monitoring and control.

Assure  
Continuous  
Home  
Assistance

Assure best comfort  
conditions  
Assure safety and  
security conditions

## What Can We Do

## Home Assistance & Surveillance Optimization

- Real-time information and surveillance;
- Definition of notifications for abnormal events;
- Prevention of falls and SOS assistance/ alarm;
- Remote equipment monitoring and control;
- Air Quality Monitoring;
- HVAC system's temperature control;
- Alerts for maintenance optimization.

# Ennova | Home Assistance

## Safety and Security

- Remote Door control;
- Intrusions Detection;
- Smoke/ Fire Detection;
- Flood detection;
- Alarms and Triggers;
- Log & Reports.

## Energy Efficiency

- Temperature Set points control;
- Scenarios control;
- Equipments and sockets control;
- Energy consumption control;
- HVAC control.

## How Can We Help

### Measure Anything

KNX Server enables you to precisely measure the consumption of any device.

Predefined Measurement Units are W, kWh, V, A, %, VA, kVAh, VAR, kVArh, cosφ, Hz, L, m3, m3/h, °C, lux, tanφ, unit.

Need additional measurement units?

**Talk to us.**

### Control Everything

Control your equipments using options such as RGB, Percent, On/ Off, Set Points, Timers, and others.

### On Top Of Your Business

Get notifications for every relevant event as, for example, under or over specific measurement values.

### Automate Your Daily Routines

Establish Rules to control your devices.

You can schedule actions, or create system automations based on readings from other devices.

### Powerful Reporting

Create activity reports for each device individually or by combination of various circuits and criteria.

Build custom reports by selecting which devices to analyze for a given time period.

Compare different devices, or device combinations and evaluate the efficiency of your system.
