### Control Everything

Control your equipments using options such as RGB, Percent, On/ Off, Set Points, Timers, and others.

### On Top Of Your Business

Get notifications for every relevant event as, for example, under or over specific measurement values.

### Automate Your Daily Routines

Establish Rules to control your devices.

You can schedule actions, or create system automations based on readings from other devices.

### Powerful Reporting

Create activity reports for each device individually or by combination of various circuits and criteria.

Build custom reports by selecting which devices to analyze for a given time period.

Compare different devices, or device combinations and evaluate the efficiency of your system.
